Environment

Interested in earning a
simulation certificate?

Grow as a simulation educator with MGH Institute of Health Professions

Now offering distance simulation foundations course as part of the certificate series or as a stand alone course.

The Distance Simulation Course:

- 1 credit earned in 6 weeks (start March 2024)
- Asynchronous with two synchronous meetings
- Focuses on building the foundations of distance healthcare simulation
- Offers a broad introduction to distance simulation from an interprofessional perspective
- Flexible base - allows for each cohort to select learning opportunities that best meet their needs from a 'menu' of educational topics.

Certificate Program Highlights

- Complete 9 credits to earn your Simulation Professionals Certificate
- Course credits can be applied to our MS program for a graduate degree
- All on-line, work while you learn

Learn. Lead. Care. Together.
